## Gestion de Projet

#### Répartition des tâches :

| Contribution<br>tâches | Base de<br>données | Programmation | Modélisation | Test & debug | Rédaction |
|------------------------|--------------------|---------------|--------------|--------------|-----------|
| Arthur                 | 50%                | 60%           | 40%          | 33%          | 0%        |
| Loan                   | 50%                | 30%           | 40%          | 33%          | 30%       |
| Guillaume              | 0%                 | 10%           | 20%          | 33%          | 70%       |

Répartition des tâches simples, chacun travaillait en parallèle sur une partie bien précise du projet, donc aucun conflit en travaillant sur la même partie en même temps.

### Gestion de Projet

#### Difficultés rencontrées

- Au début du semestre remise en question de la direction de notre projet
- Réalisation du nouveau MCD/MOD
- Trouver des idées d'exploitation des données importées

## Gestion de Projet

**Planning** 

Respect du planning, répartition des tâches hebdomadaires pour chacun.

Léger retard sur la dernière semaine.
